OUR CONSTRUCTION SURGE -- FOUR HOMES UNDERWAY!

This summer has been **busy** for HFHGP, like never before! Building continues on all four homes under construction, with the help of our volunteer crews and partners in the trades. In Kingston, the exterior is nearly buttoned-up, with just a small portion of siding to go before all efforts focus on interior work this Fall. Over in Plymouth, the spring saw us excavating, constructing the long driveway, and installing underground electrical service to help our homeowners through the harsh New England winters. Since July, the foundations have been poured on all three homes, and framing has begun on two of them.

Building four homes brings quadruple the excitement and satisfaction, but also four times the need for helping hands! We need help from community members like you and we welcome you to pitch in with a build for just one day, or more. No experience necessary, we'll teach you all you need to know. We can also put an employee group to work for a great team-building opportunity. For those not interested in working on-site, we still need help feeding our hungry, hard-working crew. Whether you'd like to build or help with a Saturday lunch, please [sign up to volunteer](#) today!

DONATE

Not surprisingly, this is a resource-intensive time as well, and we are grateful for donations to support our work! Every dollar truly does count, and gifts of any size make a difference.

MEET OUR FAMILIES!

The selected families for our current homes have already been hard at work, swinging hammers and starting to put in their required "sweat equity" hours alongside our growing volunteer force of long-timers and new faces alike. Soon-to-be homeowners, pictured below with their families, are: Jennifer D., Marine Corps Veteran; Hakeem M; Tracy H., Air Force & Army Reserve Veteran; and Allison S. & Taylor L.
